SHIVANGI SINGH RANA TD5

The lights in millions of Indian households were turned off and candles lit as the clock struck nine on Sunday night in response to Prime Minister Narendra Modi's call for a gesture of solidarity to mark the national fight against the coronavirus. irrespective of different religions and the diversity in people, we stood as one united country fighting against the virus. This is how we conveyed our message to the entire world that we are together in this fight and no power and break our trust and friendship with each other even though we belong to diverse religions.

WE ARE ONE, WE ARE FOREVER.

"Puri Duniya main failao yah Baat , Ham Bhartiya Hain Ek sath "Unity in diversity is the strength of our country. I believe that no country stands united as we Indian are. I feel so proud that I am a part of such great country where people of all religion exists but with Unity.The main part of any country are its citizen(people) and if they are together no one can break the unity of the country , so that is the reason I choose religion to symbolise and share this Unity with not only earth , but the whole universe. This unity in diversity creates beauty and immense strength. The World must learn this from India, and that's the reason , I have made Galaxy and the whole planet earth in it , with symbols of different religion showing Unity.-

एकता हमारी पेहचान , तभी तो भारत  
महान!

The age old saying “Together we stand, divided we fall”, is one thing that will get us through this world pandemic. The COVID-19 crisis is one the most challenging calamity most of the world has faced in this lifetime. When we, as the citizens of our country, join hands, and stand in solidarity, no matter how steep the climb, we will conquer the summit. Taking inspiration from the colours in our national flag, we need to show strength and courage (saffron), and keep growing and moving forward (green) pulling everybody along, and then nothing can stop us from finding peace (white).
