Placement Brochure **NIFT Bhopal**

We at NIFT Bhopal shall offer, a learning experience of the highest standards in fashion pertaining to design, technology and management and encourage our remarkably creative student body to draw inspiration from India's textiles and crafts while focusing on emerging global trends relevant to the industries we serve.

National Institute
of Fashion &
Technology
Bhopal

Message from **Director**

It gives me immense pleasure to introduce to the respectable industry experts, who have shown interest in recruiting talent from the pool of highly trained and motivated individuals graduating from the prestigious National Institute of Fashion Technology (NIFT) Bhopal.

NIFT Bhopal, boasting of the biggest campus of all the NIFT campuses, has state of the art infrastructure which provides a holistic learning experience to its students. Regular industry visits, hands on training on latest equipment and access to more than 50 handloom and handicraft clusters, enables NIFT Bhopal to provide its students with a high level of training, focused on practical aspects.

NIFT Bhopal works towards equipping the students, who are on the verge of entering their professional lives, not just with the skills of the majors they pursue also make them equally competent in the wide range of electives offered to them. The institute ensures honing the overall personality which enables the students to adapt to the diverse and challenging roles in the industry.

Team NIFT Bhopal is confident that all the students, graduating in 2023, will add value to the organization they would join.

Lt. Col Ashish Agarwal
Director, NIFT Bhopal

National Institute
of Fashion &
Technology
Bhopal

About **NIFT Bhopal**

NIFT Bhopal was established in the year 2008. The Centre started functioning from a Transit Campus situated in MP Bhoj (Open) University, Kolar Road, in the heart of Bhopal city. The Centre has shifted to its splendid permanent campus, in March 2022, sprawling over 29 acres of land, resplendent with lush greenery and non-polluting ambience.

The Centre is strategically located 20 kms from Bhopal Jn. and 10 kms from Raja Bhoj International Airport, Bhopal.

Set up in 1986, NIFT is the pioneering institute of fashion education in the country and has been in the vanguard of providing professional human resource to the textile and apparel industry. It was made a statutory institute in 2006 by an Act of the Indian Parliament with the President of India as 'Visitor' and has full fledged campuses all across the country. Over the years NIFT has also been working as a knowledge service provider to the Union and State governments in the area of design development and positioning of handlooms and handicrafts.

National Institute
of Fashion &
Technology
Bhopal

OUR VISION

We at NIFT shall offer, at all our campuses, a learning experience of the highest standards in fashion pertaining to design, technology and management and encourage our remarkably creative student body to draw inspiration from India's textiles and crafts while focusing on emerging global trends relevant to the industries we serve.

National Institute
of Fashion &
Technology
Bhopal

OUR MISSION

We at the National Institute of Fashion Technology will:

- Provide a transformative educational environment for talented young men and women to nurture their inventive potential and to acquire distinctive skills valuable to self, industry and society.
- Offer a stimulating, modernistic and evolving curriculum that spans the vast spectrum of India's artistic heritage yet remains firmly contemporary, incorporating disruptive technologies.
- Value and celebrate cultural and individual diversity in our students, faculty and alumni, always emphasizing the power of fellowship.
- Be a global leader in the dissemination of innovative and project based pedagogies in design, management and technology for all facets of the textile, apparel, retail and accessories industries, through the promotion of rigorous and cutting edge research.
- Enable our faculty and students to have intensive interaction with educational institutions, fashion houses, start-up hubs and corporations relevant to our programmes.
- Bring forth graduates who stay committed to exacting standards of professional excellence and personal integrity.

DEPARTMENT OF **FASHION MANAGEMENT STUDIES**

National Institute
of Fashion &
Technology
Bhopal

Programme

MASTERS IN FASHION MANAGEMENT (MFM)

To develop world class professionals in the areas of fashion management, marketing, merchandising, and retailing; to produce future entrepreneurs who are equipped with fashion product, technology, analytical and managerial skills and knowledge with right industry connect.

Students undergo in-depth education in management, marketing, buying, merchandising (retail and export), retail operations, international marketing, international trade practices and project formulation.

Entrepreneurship and also on an important aspect of interdisciplinary aspect of fashion. They are exposed to creative merchandising/marketing, innovative fashion management practices, Information technology developments, cluster studies, sustainability, directions of fashion trends and business practices, through field visits and industry internships.

The department maintains an active collaboration with the industry through several consultancy projects undertaken by the members of the faculty and also through the internship and graduation projects, class room projects done by the students.

Majors

Major subjects refer to the core domain of the department. The purpose of the first semester major subjects is to prepare a firm background and foundation, on which further specializations can be built, in the area of Marketing, Merchandising, Understanding of Fabrics, and Research and Statistical as well as Information Technology application in it. The understanding of these basic disciplines is further enlarged and substantiated in the subsequent semester with subjects like Supply chain management, Omni Channel Retailing, Consumer Behaviour and Neuro Marketing, Luxury Brand Management, Fashion Brand Management, Strategic and Innovation management, Big data and analytics etc. The purpose of the major subjects is to groom the students in the key areas that are necessary for a domain specific management course the "Fashion Management Studies". The progression of the subject is such that continuity of knowledge is maintained. Self-study by the students is encouraged as part of curriculum.

Deepening Specializations (DS)

Deepening specialization subjects are meant to allow the students to specialize in a specific area leading to a particular pathway. The areas for deepening specialization are Marketing and Retailing, Entrepreneurship and International Business. The student can choose any one area for in-depth study throughout the course.

DS 1: Marketing and Retailing The specialization provides an opportunity to gain in-depth understanding of Customer Experience Management, Retail operations, Omni-channel Retail, E commerce etc.

DS 2: Entrepreneurship The Entrepreneurship would equip the students with the skills to understand the nuances of feasibility study and business laws, report making to setup his enterprise.

DS 3: International Business The International Business as a deepening specialization aims to provide a nuanced understanding of the size and nature of global business, EXIM documentation, export marketing. All these specialization would help the student to focus and perform at higher level.

Career Pathways

The Marketing & Retailing specialization covers the subjects like customer experience management and retail operations, Omni channel planning and buying, E commerce, fashion promotion mix and social media marketing, branded entertainment. This would lead to careers as Retail buyer, retail planner, store manager, visual merchandiser, retail trainer, mall manager, retail consultant, brand executive, social media analyst, social media marketer, content marketing, event manager, E-commerce merchandiser, marketing and sales professional, luxury store manager. International business specialization covers the subjects like global fashion business, export merchandising and EXIM documentation, global marketing and costing and profitability. This would lead to careers as export merchandiser, buying house merchandiser, sourcing manager, logistics manager, global business development manager, sampling merchandisers, compliance officer, and vendor management executive. Entrepreneurship specialization covers the subjects like Entrepreneurship business models and success stories, business idea generation and feasibility testing with live projects, family business management, business plan, laws and integrated project. This would lead to careers as entrepreneur, social entrepreneur, NGOs, academician, cluster manager/marketer, Consultant for rural marketers.

DEPARTMENT OF **TEXTILE DESIGN**

Programme offered

B.DES IN TEXTILE DESIGN

From fibre to fabric, the design and development of textiles is the key to the business of fashion. The fast paced activities in the export and domestic sectors of the Indian apparel and home fashion industry demand professional textile designers who can think 'out-of-the-box' and yet adapt to the challenging business environment.

Programme offered

B.DES IN TEXTILE DESIGN

Majors

The Textile Design Major equips students with knowledge and hones their creativity and understanding of design application for the industry. Weaving, print design and surface embellishment are the core textile subjects, using both hand and digital skills, to impart an extensive and versatile training for the students. The Major builds upon the integration of creative forces of design with textile technology, and also keeps in mind the historical, social and cultural contexts in which the designers work today. Textile innovation and emerging textile technologies are an integral part of the Major. The Major offers ample opportunity to students to create, experiment and innovate with materials. Alongside there is also emphasis on learning specialised software in order to explore digital and non-traditional approach to design, fabric structures and surfaces. The objective is to provide hands-on experience through practical set-ups and state-of-the-art technology. The department boasts of an array of studios including weaving, textile testing, surface design and CAD.

Deepening Specialisations (DS)

and sourcing for a specific product. Specific industry linked design projects in core areas of prints, surface and weaves will provide real time experience to design fabrics for apparel and fashion accessories.

DS 1: Textiles for Fashion & Living The Deepening Specialisation 'Fashion and Living' will strengthen students' understanding of the apparel and home segment and build up their vocabulary of fashion, apparel categories, home and lifestyle textile product categories, details and trimmings used in garments, home fashion and accessories. The specialisation focuses on intensive fabric studies in order to equip students to select appropriate fabrics for different products, and comprehend the nuances of product development including costing and sourcing for a specific product. Specific industry-linked design projects in core areas of prints, surface and weaves will provide real-time experience to design for apparel, home fashion and accessories from mass production and commercial perspective.

DS 2: Textiles for Innovative Application The Deepening Specialisation 'Textiles for Innovative Application' will focus on the innovative application for numerous textiles product categories across apparel, home and accessories. The students will gain an understanding of advanced material, emerging technologies, and processes in textiles. The specialisation entails strengthening students' knowledge of innovative applications to conceptualize surface/structure or product from a functional and aesthetic perspective. The critical know-how of product development from ideation to product realisation will be addressed through industrylinked projects. The students will be adept to design prints weaving and embellishing fabrics and develop innovative products.

DS 3: Textiles for Creative Application The Deepening Specialisation 'Textiles for Creative Application' will focus on the creative application for numerous textiles product categories across apparel, home fashion and accessories. The students will gain an understanding of the niche, bespoke, hand-made, luxury, and curated segments in textiles. The student will gain knowledge on colours, motifs, patterns and sizing and positioning of products. The specialisation entails strengthening students' knowledge of fabrics and their properties in terms of performance and

aesthetics for a specific end application. The critical know-how of product development from ideation to product realisation will be addressed through industrylinked projects. The students will be adept to design prints, weaves and embellished fabrics with a focus on creative product development. The Textile Design students undertake sponsored Graduation Project in their final year with the industry for a period of 16 weeks to develop design collections. The projects are sponsored by textile mills, export houses, home and apparel retail brands, designers or NGOs. The students are also given the choice to undertake selfsponsored or research projects. The Graduation Project culminates with academic evaluation and the final showcase of students' work in an annual show.

Career Pathways

The programme prepares students for a wide range of careers in the textile and fashion industry like mills, export houses, buying agencies, design studios, handloom and handicraft cooperatives, NGOs, home and apparel retail brands and online stores as Designers, Merchandisers, Buyers, Managers, Home/Fashion Stylists and Trend Forecasters or work independently as Entrepreneurs. The Textile Design alumni are doing collaborative and interdisciplinary work with worldleading industry partners such as Arvind Mills, Welspun, Bombay Dyeing, Madura Garments, Maspar, Portico, D'décor, Trident Group, Samsung, W for Woman, Biba, Satya Paul, Triburg, Sarita Handa Exports, Shades of India, Apartment 9, Blackberrys, Fabindia, Jaypore and with designers like Sabyasachi Mukherjee, Ritu Kumar, Tarun Tahiliani, among others. Some of the alumni are successful entrepreneurs, setting trends and making great strides in the fashion world.

Nandini Gupta

TEXTILE DESIGN

Nandini Gupta, soon-to-be textile designer. I have always looked around for inspiration which leads me to find patterns, process and principles that lie in the finer nature. I am a detail oriented person with an abstract design vision. Being around artist, I began to appreciate art in an early stage, from gazing at my sister's work to helping her an ant's hand, my interest in designing has deepen many folds. Seeking opportunities to enhance my skills and knowledge to the fullest along with the organization objectives.

ADITI MITRA

TEXTILE DESIGN

I'm Aditi Mitra, a textile design major at the National Institute of Fashion Technology who is 23 years old. I am a hardworking and committed student who is constantly looking for new possibilities to study and develop new talents. I think I can work well both solo and in groups to adapt to different challenges. I enjoy meeting new people and communicating with them about their lives, experiences, and lifestyles, and exploring cities as well as my own community. Although it is a tough task to explain oneself but i am one of a kind who is always keen and ready to learn more, and i am a good and quick learner so, it might be possible that i don't know certain thing but i know how to find a way to make it possible, and i always crave for good and smart work because it motivates me.

Pallavi

TEXTILE DESIGN

During graduation, I have done some internship as Textile Design Intern and Graphic Design Intern both. In this role, I helped to develop new techniques and design. In terms of skills, I have a strong proficiency in NedGraphics, Adobe Photoshop ,Adobe Illustrator and Canva, and I am also comfortable with Power Point Presentation and MS Word. I also possess excellent problem-solving skills and a keen attention to detail. Outside of work, I enjoy playing Kabaddi and reading books on personal development. I am also actively involved in my community, volunteering with a local charity organization to provide food and shelter for homeless individuals.

Ronika

TEXTILE DESIGN

My name is Ronika Negi, and I am currently in the final year of my Textile Design course from NIFT Bhopal. My passion for design comes from my muse for the beauty of mountains and skies of Dehradun, where I was brought up. My interest lies in print designs, surface embellishments and illustrations as I can bring to life all the creativity that runs through my head. I have had the opportunity to explore product designing while also combining it with textile design. I am looking forward to work with the professionals in the industry and make the most out of it for the company while improving my skills for the better productivity

Rhythm Sachdeva

TEXTILE DESIGN

I'm Rhythm, Currently in 4th year of my bachelors degree in textile designing at NIFT Bhopal. My inspiration for being a designer doesnt come from a very special place but just from the little things in life like the verse of a poetry, the sight of birds in flight or the colors in the sidewalk. I just learned to express myself visually with my designs and textile design is a great companion to all the other subjects like creativity, imagination and problem solving skills.

DEPARTMENT OF **ACCESSORY DESIGN**

Programme Offered

B.DES IN ACCESSORY DESIGN

Accessory Design programme prepares design professionals with embedded fashion knowledge, to offer innovations across myriad platforms spanning jewellery, crafts, personal accessories, soft goods and work gear.

Accessory Design programme is a career based education that is relevant today and has the ability to address the changing future scenario.

Majors

Accessory Design Majors provides extensive design knowledge in a socially relevant fashion scenario. Knowledge is enhanced with conceptual understand of design as a process, material as a medium and ability to synthesize outcomes enabling them to address the contemporary needs. The program offers the millennial students to perfect the design process through a balance of latest chic trends and a passion for hand crafted artisanal products and process. Students are creatively engaged in developing visualization skills with greater degree of digital fluency. They stand empowered with material manipulation skills with an indigenous edge of traditional techniques. Students are enabled to articulate their individuality through their signature style accessory design collections, yet keeping it relevant to the market and industry challenges. This design collection of eclectic fashion lifestyle accessories are based on patterns stemming from a synergy of forms, colours and materials.

Deepening Specialisations (DS)

Accessory design students are empowered with a choice of deeper learning with of specific skills in form of deepening specialization that constitutes of Jewellery Design, Fashion products & Work Gear. Student can make conscious choice of any one deepening specialization. This process is well supported by the department faculty mentor attached to every student throughout his learning in campus.

DS 1: Jewellery Design Students gain an in depth understanding of the jewellery domain knowledge in terms of product, people and functioning. Students are equipped with traditional & technical skills in jewellery making. Students are enabled to design fashion jewellery collection with contemporary aesthetics and position them in the fashion space.

DS 2: Functional Fashion Accessories The programme offers the millennial students to perfect the design process through a balance of latest chic trends and a passion for hand crafted artisanal products and process across the conventional fashion accessory spectrum. Students gain an in depth understanding of the fashion accessory category knowledge in terms of fashion, form & function. Students get proficiency in traditional & technical skills in creating the accessories Students attain fluency in terms of material and process that is built on explorative experience. Students are capable to design fashion accessory collection with contemporary aesthetics and position in the fashion space.

DS 3: Decor & Design Decor & Design: Students understand space & visualization with an opportunity mapping in living space, bedroom & bathing luxury accessories. They get to sense aesthetic & ornamentation opportunity application in the living space segment. They get to explore the making process & products with mixed media thereby knowing the nuances of manufacturing & making of fine dining products. Design an eclectic artefact with respect to the context and design products that are in sync with environment.

DS 4: Product Experience Design This specialization offers a comprehensive understanding of methods and techniques of industrial design leading to interpret consumer needs and applications to design products. It deals with user experience, ergonomics and interface related to product design. The subject deals with the nuances of industry requirements of product design like manufacturing and technology, specification and detailing, visualisation and representation of the same.

Career Pathways

Accessory design students are empowered to design their combinational pathways to enter future careers with transferable skills and flexibility. Few of the career path ways envisaged are: Accessory Design, Jewellery Design, Decor Design, Design thinking, Designing ideation and concept development, Design researcher, Fashion trend consultation, Accessory Design solutions for both International and domestic markets. Craft based product design. Design futures etc. Students have a choice to work for both corporates and international business. But, students are embedded with design thinking methods and a combination of business knowhow that triggers them to start their own design business.

FASHION & LIFESTYLE ACCESSORIES

I'm an undergraduate student pursuing design education in the field of Fashion & Lifestyle Accessories Design. I have grown as a passive thinker, determined to learn and seek insights what journey has to deliver. I have much experience in hands-on prototyping without relying solely on virtual design tools. I do however possess excellent 3D and 2D software skills. And, that's how I like presenting my work for the viewers, detailed.

Naincy Patkar

ACCESSORY DESIGN

Hello, I'm a Naincy Patkar. To me, design is engaging in creativity and problem solving which I enjoy while at the same time having the power to make small contributions to society. I got my start as a designer by helping my father accessorizing the sculptures he made. I've hands-on experience with different materials, and I am looking forward to use my passion and experience to further pursue a career in Jewelry design.

Avi Anand

LIFESTYLE
ACCESSORIES

This is Avi Anand , a budding designer and a passionate learner who finds fun in exploring and trying new things out. I popped up in Dehradun, sailed my education boat in The city beautiful Chandigarh and polishing my career slate in the city of lakes Bhopal. I am currently pursuing BDES from one of the esteemed Institutes of India - NIFT and feel honored to dive in its educational structure of creating legends in the industry we get inspired from today. I have been an achiever throughout my journey. My life is been a win always either in prizes or experiences. Having more trophies and medals on my table doesnt matter, rather I wanna earn the trophies of uncountable experiences in my life bucket. I aspire to learn and make a space as an asset in the industry . My motivation is Steve Jobs the genius who made Apple and even I have my own dreams which I need to venture to make an invention the world has been waiting for long. NIFT has given me a strong foundation, now its time to repay in terms of appreciation it deserves to bestow on itself .

Rucha Gargade

ACCESSORY DESIGN

Myself Rucha Gargade, studying Fashion & Lifestyle Accessory design at NIFT Bhopal. I was brought up in the city of gates Aurangabad, Maharashtra. My philosophy while designing is to create simple yet impactful designs. Clean & minimal; geometrical forms with a hint of softness are mostly depicted in my work. My curiosity of knowing new cultures, and interacting with different people fuels my creativity. I like to explore new things. I try to constantly evolve and grow.

Vedant Ved

ACCESSORY DESIGN

The biggest reason is "what if", an inner urge that causes me to think differently and creatively. I keep going back to this "what if" idea, and as a designer, I attempt to create something that, through design and creativity, helps people grasp this cluttered world in a simple manner.

AKANSHA MAURYA

ACCESORY & DESIGN

I am an ambition driven person with a knack for creativity. If given the opportunity, i like to give my best to it. I like to take up leadership roles because I believe I can communicate and connect with the team members on an individual level and at the team level too, in turn getting the task done right.
