With reference to the E- Tender dated 19.06.2020 vide Ref. no. NIFT-GNR/DFT/136/2019(2020) **“Setting of Pneumatics Section of Mechatronics & IOT Labs in DFT dept.”** Clarification regarding :

1) Clarification regarding of **Setting of Pneumatics Section of Mechatronics & IOT Labs in DFT dept .**

Pneumatic system, including all items, is required for academic purpose and laboratory experiments. The present scope of the tender is for the complete package and not as for individual items. Therefore, the components should be fully compatible with each other in every aspect including electrical connections, voltage rating, pressure operating range etc. All the pneumatic and electro-pneumatic components should be mountable on the profile plate without the requirement of any tool. The simulation software should be fully compatible with the pneumatic system. Some of the critical specifications of the pneumatic system are already mentioned in the tender document. The bidders can take the cross reference from critical specifications mentioned in the tender document, which is a common practice for such types of systems.
