It may be noted that the students remain away from the Hostel during breaks in June-July, end December, beginning of the year, during festive seasons (Dussera/Diwali, etc.). During the break in June-July the contractor need not to pay the maintenance charges; however, he should vacate the canteen premises and the canteen should not be operational during June-July. Agency should quote rate considering the same as no payment will be made to the contractor during the break period of June-July.

The other terms and conditions prescribed in the tender document remain unchanged.
