

Message from Dean NIFT for Graduation Show 2020

“Education is the most powerful weapon, which you can use to change the world” - Nelson Mandela.

The National Institute of Fashion Technology is the undisputed leader of Fashion education, the institute is a centre of excellence and innovation, that is a proactive catalyst for the growth of fashion business in the country. The academic input at NIFT is in tandem with the ever evolving aspirations of the youth and it incorporates critical concerns such as environmental sustainability, ethical issues, human rights concerns, competitive market situations, and lifelong skills. It fosters out of box thinking both in the approach and methodology through its academic input.

I have no doubts that as you enter the society as new graduates you will make a strong impact, and at later stages share your experiences and expertise with your alma mater. “Perfection is achieved not when there is nothing more to add, but when there is nothing left to take away.” –Antoine de Saint-Exupery.

It gives me immense pleasure to witness the graduation projects of students of NIFT Mumbai. The projects undertaken by students this year will always be special to NIFT as these projects have been executed successfully by students in turbulent times which present human generation have never witnessed. I am delighted to observe that while the entire country was battling with pandemic with fear, frustration and uncertainty, NIFT students completed their projects within given framework and as per NIFT and Industry standards and norms. .

May I take this opportunity to wish the class of 2020 the very best for a successful and rewarding future. Please remember to dream and strive for excellence in all your pursuits.

Prof. Dr. Vandana Narang
Dean NIFT
