## ABOUT SHILLONG

Meghalaya emerged as a full-fledged State within the Union of India on 21st January 1972.

'Meghalaya' meaning 'abode of clouds' reflects the salubrity of its climate. The wettest places in the world are also located here. The State has an area of 22429 sq. km. and is located between 24°57' and 26°10' North latitudes and 89°46' and 92°53' East longitudes. The temperature varies from 2 degrees Celsius to 35 degree Celsius depending upon the altitude which varies in hills from 300 metres to 2000 metres above mean sea level. It has predominantly hilly terrain with foothills as plains and flood-prone areas.

[illegible]

For places within city limits, city buses by Shillong Public Transport are good option. City buses are notoriously slow. Drivers move their buses from the bus stop only when the bus gets packed or another bus arrives. Many times you will find that walking will take you earlier to your destination.

Black and yellow un-metered shared taxis ply within city limits. These are faster and are always shared; rates may vary from approximately INR 10 to INR 50 maximum. Being shared taxis, drivers often pick up additional passengers en route to the same destination, in order to make a better fare. If one decides to negotiate the "hire" of a taxi, however, the driver will not pick up any more passengers (or stop roadside to find more) but the fare will be significantly higher than if one had just hailed the taxi as it passed by.

**Note: The above information are based on experience in Shillong city.**
