Fashion Design

Fashion Intersections, Image and Styling

DEEPENING SPECIALIZATION 2

The track on Fashion Intersections, Image and Styling traverses the pathway from the seeding of Celebrity culture and Photography (sem 4) for fashion dissemination, extending to Fashion Styling Image & Visual Communication (sem 5) as a natural progression to design, Sustainable Fashion & Presentation (sem 6) incorporating the salient principles of sustainability, Zero Waste Patternmaking to visuals for website/ social media, to Occasion wear and custom fashion for Women (sem 7) which targets the high-end custom fashion segment. In incorporating the most relevant areas with an eye to future opportunities, this pathway creates added scope of employability for the Fashion Design students.
